

COLOR research and application Index to Volume 17, 1992

This is the fifth index to *COLOR research and application*. It covers Volume 17, 1992.

In the Subject Index, items are listed under one or more subject categories (listed below) ranging from Appearance to Turbid media theory. The title of the item is followed by the author(s), volume, page, and year. If the item is a Color Forum, Industrial Note, Letter to the Editor, Meeting Report, News Item, Er-

ratum, Necrology, or Note, the appropriate words will appear after the title; articles are not specifically designated in this way. Book reviews are listed as "Review of . . ."

The Author Index is similarly structured within listings. Items are listed under the name of the first author, in alphabetical order. Co-authors are listed and cross referenced.
